The 7 Habits Journal The 7 Habits of Highly Effective People: Powerful Lessons in Personal Change was written on Covey's belief that the way we see the world is entirely based on our own perceptions. He introduces the "Inside-Out" paradigm approach. According to Covey, in order to change any given situation, we must change ourselves first: the inside part of ourselves - our paradigms (or perceptions, frame of references, interpretations, etc.), character, and motives. He further explained that to change ourselves, we must first change our perceptions, leading to significant change. Covey believed that our perception dictates how we see the world; therefore, we create any situation that we find ourselves in. Based on this idea, we create any unhappy state; whether it be a stagnant life, an unhappy marriage, etc. In changing our perceptions, we change ourselves and ultimately change our situation.

*Escaping Ordinary* In 1989, Steven Covey published a business book or was it a self-help book? Actually *7 Habits of Highly Effective People* is a hybrid. Like a Toyota Prius or a Ford Focus blends electricity and gasoline to maximize efficiency. One can blend the way he or she conducts business and leads their personal lives to benefit both. The two are intertwined and when you lead life with poise, astuteness, dignity and a sense of purpose, success can be achieved. The paradigm or way to think about things is changed. A habit is a pattern derived from frequent repetition. It becomes an unconscious choice to act a certain way with oneself or with others. A habit can be as simple as waking up at dawn or saying thank you when a person lends you a favor. Covey puts forth that all successful people share these 7 habits, which become an integral part of a person's character. By striving to implement these character traits into our own lives, we can be effective and successful too. Changing our habit's to mirror those in *7 Habits of Highly Successful People* is not simple. A process may require baby steps when our instincts tell us to take giant leaps. Fortitude is required but the payoff is enormous. The 7 habits toward success can be taken in three stages. Independence happens when we work on ourselves internally. These steps towards self-regulation include habits 1-3. 1.Be Proactive 2.Begin with the end in mind 3.Put first things first Once we achieve independence, it is time to improve interaction with others. In the words of John Donne (1572-1631) No man is an island, entire of itself; The following three habits will help us achieve interdependence. 4.Think Win-win 5.Seek first to be understood then to understand 6.Synergize The final habit of highly successful people is perhaps the most important because without it the others are no possible. 7.Sharpen the Saw These tools can set you on the road to success. *7 Habits of Highly Successful People* has sold over 15 million copies worldwide and it can be read in over 30 languages. World known business leaders and heads of state like President Bill Clinton of the United States have found this book useful. The time is now to begin implementing them into your life.

In The End of Mental Illness, Dr. Amen draws on the latest findings of neuroscience to challenge an outdated psychiatric paradigm and help readers take control and improve the health of their own brain, minimizing or reversing conditions that may be preventing them from living a full and emotionally healthy life. The End of Mental Illness will help you discover: Why labeling someone as having a "mental illness" is not only inaccurate but harmful Why standard treatment may not have helped you or a loved one--and why diagnosing and treating you based on your symptoms alone so often misses the true cause of those symptoms and results in poor outcomes At least 100 simple things you can do yourself to heal your brain and prevent or reverse the problems that are making you feel sad, mad, or bad How to identify your "brain type" and what you can do to optimize your particular type Where to find the kind of health provider who understands and uses the new paradigm of brain health
